EDUCATION

University of Notre Dame 2022 - present
Ph.D. Candidate, Computer science and engineering
Research interest: Efficient and robust AI accelerator, Soft/hardware co-design for edge AI, Efficient LLM and generative AI.
Honorably work with Prof. Yiyu Shi & Prof. X. Sharon Hu

Huazhong University of Science and Technology 2018 - 2021
MS, Software engineering
Research interest: quantized low-bit neural networks with RRAM

Huazhong University of Science and Technology 2013 - 2017
BS, Electronic science and technology

AWARDS AND HONORS

Young Fellow (DAC) 2025
William J. McCalla Best Paper Award Candidate at IEEE/ACM ICCAD (10 out of 802 submissions) 2024
Young Fellow (DAC) 2024
William J. McCalla Best Paper Award at IEEE/ACM ICCAD (2 out of 750 submissions) 2023
Young Fellow (DAC) 2023
Outstanding Graduates (HUST) 2020 - 2021
Outstanding Volunteer Docent (Wuhan Museum) 2015 - 2016
National 2nd Prize (China Undergraduate Mathematical Modeling Contest) 2015

RESEARCH EXPERIENCE

University of Notre Dame Notre Dame, IN
Doctoral Researcher August 2022 - present
Established and implemented hardware/software codesign methods to mitigate the impact of device variations and noise on inference of non-volatile AI accelerators. Achieved high robust and efficient solutions for LLM models and AI accelerator.

Hong Kong University of Science and Technology (HKUST)
AI Chip Center for Emerging Smart Systems(ACCESS) Hong Kong
Intern May 2024 - July 2024
Designed and implemented a convolutional neural network system for ventricular arrhythmia detection with a 40nm LP TSMC CNN accelerator, delivering a deployable chip demo. Led the full-stack design, from UI to backend, achieving substantial reductions in inference latency and energy consumption through optimized quantization and pruning techniques, demonstrating high-performance real-time detection capabilities.

Huazhong University of Science and Technology Wuhan, Hubei
Master's Researcher, Research Assistant August 2018 - June 2022
Designed low-bit quantized CNNs for RRAM accelerators, addressing non-idealities of RRAM crossbars during inference. Developed a novel binary neural network RRAM accelerator with half area and maintained high accuracy.

PRESENTATIONS & TALKS

Computer science department, Shandong University (SDU)	**Aug, 2024**
Electrical engineering department, Zhejiang University (ZJU)	**Aug, 2024**
University of Michigan-Shanghai Jiao Tong University Joint Institute (UMich - SJTU)	**Aug, 2024**
Electrical engineering department, Southern University of Science and Technology (SUSTech)	**July, 2024**
AI Chip Center for Emerging Smart Systems, Hong Kong University of Science and Technology (HKUST)	**June, 2024**

TEACHING EXPERIENCE

CSE-40868 Neural Networks, TA — SP23

REVIWER FOR JOURNALS/CONFERENCE

ACM/IEEE International Conference on Computer-Aided Design (ICCAD)
Scientific Reports

LEADERSHIP AND SERVICE

Member, Graduate Student Association, Huazhong University of Science and Technology	2019-2020
Volunteer Docent, Wuhan Museum	2015-2016
Team Captain, College Table Tennis Team, Huazhong University of Science and Technology	2016
President, Table Tennis Association, Huazhong University of Science and Technology	2015-2016
